

One market. Many allocations.

THE PROBLEM

21.6%

of EU road-freight vehicle-km
run empty

~50%

average urban freight
vehicle load factor

21 major European cities

Empty return

THE PROBLEM

\$15–20B /year

spent repositioning empty containers

Surplus port

Containers needed

THE PROBLEM

The resources exist.
There is no mechanism to coordinate them across organizations.

Enlace clears the market.

Allocation + prices + terms ✓

Who pays for Enlace and why?

Start with 2–3 shippers and their carriers.

AGREED

Design partner

Agreed to start working together.

NOW

2–3 shippers

- Start with compatible freight lanes.
- Their existing carriers.
- Test exchanges across shared lanes.

THEN

Expand the market

More clients.
More lanes.
More participants.
More resource types.
New markets.

An annual platform fee per private logistics market.

€200k+

Initial annual platform fee per private logistics market

+ deployment / integration
